

Merge Youth Ministries 2019 Summer Mission Trips

July

Family Mission Trip & High School Mission trip Pura Vida Missions - San Ramon, Alajuela, Costa Rica

Our mission trips are designed to be a cross-cultural adventure of sharing Jesus Christ. We provide your team with training materials to equip them for the trip. From the moment you book a trip with us we concentrate on praying for, equipping, encouraging and empowering your team to do ministry in Costa Rica and in your home town. We emphasize teamwork so that your team will return home stronger than ever before. We help your team discover God's vision for how they can serve the Kingdom of God when they return to their local church and community.

Schedule: Arrive early afternoon in Costa Rica on Sunday. Work full days of construction Monday—Wednesday, have a half a day of work on Thursday and enjoy local site seeing in the evenings along with Worship. Friday morning travel to Volcano where we will be staying until Sunday.

Construction Projects: We are currently helping a local pastor (Pastor Carlos), who are staff have been investing in by training leaders, build a church in a very poor area call Linda Vista. We also build bunk beds for families and home repairs.

Fun Days: Arenal Volcano in La Fortuna is a beautiful place to unwind in a two night hotel stay (Friday & Saturday). We will experience their Hot Springs that are naturally heated by the Volcano. We'll spend a day zooming over the jungle canopy on a zipline tour or paddle the rapids on a rafting adventure.

When:

Family Mission Trip – Sunday, July 7 – Sunday, July 14

High School – Sunday, July 21 – Sunday, July 28

Cost: \$1,500 – Everything included in this price!

Domestic Mission Trip – SIFAT (Servants In Faith And Technology) - Lineville, Alabama

How do we inspire and compel our young people today to give everything they have so that others may know His love?

They have to **walk in the shoes of our brothers and sisters in need around the world.**

This is the place that gives youth the opportunity to be **immersed in developing countries without leaving the country.** It is a place that has a Global Village and an Urban Slum with experiences to go along with that simulate what it is like for our brothers and sisters around the world.

“I live in a slum, all my water is dirty. What do I do?”

Students experience this.

They are then taught various water purification technologies that can be done anywhere.

“I live in a rural village and my access to nutrition is limited. What do I do?”

Students experience this.

They are then taught various ways to incorporate gardening, farming and potent leaf powders into their diets.

“I spend most of my day gathering firewood to keep the fires burning for food and warmth.” What do I do?

Students experience this.

They are then taught different stove technologies that are more efficient and safer.

These are just a few of the examples of the experiences as well as the training that takes place on our campus and in our summer learn & serve experience.

There is no place like the Galilee Campus of SIFAT that does what we do.

Summer Experience 2019. Five night overnight experience with delicious meals included.

“Eyes Opened”

When: Sunday, July 14 – Friday, July 19

Cost: \$400—Everything included in this price!
